A MESSAGE FROM THE CHAIRMAN

Plan Company first began operations within the construction industry; we then expanded the scope of our work to include electricity, telecommunication services, the fields of water, nature conservation, infrastructure, and investment.

Plan Company's future perspectives is focused on fulfilling our objectives through strengthening our existing partnerships and cooperations with credible, international companies, as well as creating new ones to supply a benefit for the communities we work in.

With the privatization of utilities, we intend to expand our services to include the supply of electricity, water, and recycling as part of the private sector using efficient modern methods and technologies. We have, over the years, remained committed and resilient in finding opportunities to help us sustain and grow our years of experience and work to ensure the sustainability of essential services in our region.

Tahsin Kader Ali

VALUES

Ethicality is at the core of our practices at Plan Company; we strive to operate at a high ethical value to ensure we deliver substantially high quality, reliable goods and services yielding high customer satisfaction.

Customer and consumer satisfaction is another of our values. At Plan, we aim to create benefit for our customers, employees, shareholders, suppliers, and, community. We do not believe in compromising quality to increase profit.

VISION, GOALS, AND OBJECTIVES

Our vision is to be the nation's leading contracting company. Additionally, we aspire to be a good member of our society; through employing youth with potential, giving back with corporate social responsibility schemes, and delivering high standard goods and services.

Our goals and objectives are to maintain our trust, reputable name and high standard of work which we have established in the industry, develop our scope of work into new fields and expand our boundaries to include new regions.

MISSION

Our mission is to provide high quality and reliable products and services at an internationally acceptable standard. Implement projects by highly skilled engineers with extensive years of experience both nationally and internationally, with highest quality and in a timely manner, often completing ahead of schedule. Working with the most reputable and trustworthy suppliers around the globe. Create a healthy work environment for employees, where they can grow their skills and creativity. Respect all employees and clients.

PLAN COMPANY LTD.

Plan Company is one of the nation's best contracting companies. It has grown to become a first class company that works at international standards in several different fields. Plan Company was established in 2001 with its headquarters based in Sulaymaniyah, it has now grown to operate in Kirkuk, Erbil, and other districts. Plan Company is stretching out and has grown from a local contracting company to become a national contractor with a reputation for outstanding work and high quality.

The company's extensive experience in the different fields together with its highly experienced local and international staff, its contact with all the major suppliers around the world, and being a part of Faruk Group Holding, Plan Company has embraced all the core values of its mother company.

At Plan Company, we set our employees first and we have a democratic leadership where we appreciate and welcome integrity, reliability, humanity, democracy, and excellence.

Plan Company offers unparalleled construction expertise, competitive pricing, financial security and strength, integrity, and a commitment to the success of all its projects from start to finish. Plan Company is supported by a foundation of professionals qualified to undertake projects of any size and complexity.

FARUK GROUP HOLDING

FGH is comprised of 27 operating companies in twelve sectors:

Telecommunication and Information Technology, Cement industry, Light Industry, Insurance, Medical Services, Construction, Hospitality, Trade & Commercial Agencies, Energy, Agriculture, Real estate and Project management.

The company was incorporated as a holding company, controlling the shares and companies owned by the Chairman of the board, Faruk Mustafa Rasool. FGH has always been a champion of Iraq's development and has constantly aligned business opportunities with the objective of helping Iraqi communities. This approach remains embedded in FGH's culture to this day. FGH is Iraq's largest and most respected private company, with a workforce of 12,000 employees strong.

FGH companies share a set of five core values: integrity, humanity, reliability, excellence and democratic principles. These fundamental values, which have been paramount to belief and convictions since FGH's inception, continue to guide and drive all business decisions. Commitment to the adherence of universal business ethics and a dedication to corporate social responsibilities have earned FGH the trust of millions of stakeholders in a measure that few companies in Iraq can match.

SERVICES

Plan Company is providing the following services:

- Engineering feasibility studies
- Project management
- Electrical substations - designing, supplying, installing, testing, and commissioning
- Power distribution - planning, designing, rehabilitating, and constructing
- Power transmission - planning design, rehabilitating, and constructing
- Underground electric cable
- Construction - residential and industrial, building foundations, roads design, implementation and project delivery
- Material supply of various equipment for electrical and mechanical projects
- Tender document preparation and evaluation
- Telecommunication services
- Water supply - dams

Our series adapt and converge with the individual requirements of the customer.

PARTNERSHIP

The success and quality of our services and products has enabled Plan to form partnerships with many international companies in the fields of power, electricity, and construction.

Our partners include:

- ABB - Europe and Near East
- LEUKHARDT SCHALTANLAGE GmbH - German
- ATEN - Turkey
- VISA - Italy
- DALMAN - IRAN
- CG Power Solutions - Belgium
- SCHNEIDER ELECTRIC SA - France
- Prysmian Group - Italy
- NEXANS - France
- MITAS POLES - Turkey
- PSR Product Service Road - Italy
- SUDKABEL GmbH - Germany

Completed Projects

Our degree of professionalism and ethical, high quality of work has enabled us to complete small and large scale projects at all complexities.

Sulaymaniyah – Traffic Signs Project

Project consisting of designing, engineering, material supply, construction

- Duration: 430 days
- Commencement date: 21.04.2019
- Completion Date: 29.07.2020
- Budget: \$ 3,030,168
- Employer: General Directorate of Traffic, Sulaymaniyah Traffic Directorate KRG

Construction of 396 Flat in Erbil

Project consisting of engineering, procurement and construction (EPC) of 396 apartments over 33 building in Erbil. Including the interior work of the apartments.

- Duration: 92 months
- Commencement date: 15.2.2012
- Completion Date: 29.10.2019
- Budget: \$ 12,097,145
- Employer: Ministry of Housing & Reconstruction , KRG

Construction of Qadir Karam Dam

Project consisting of engineering, procurement and construction (EPC) of Qadir Karam Dam.

- Duration: 3 years 7 months
- Commencement date: 27.12.2011
- Completion Date: 06.08.2015
- Budget: \$ 4,703,950
- Employer: Council of Ministers, Committee of Water and Irrigation, KRG

33kV Underground Cable between Bazian Can Factory - Bardaqaraman Substation

Project consisting of Design, engineering, procurement, construction (EPC), testing and commissioning of 33kv Underground cable with length 4.8 Km for connection between Bazian Can Factory and 132kV Bardaqaraman substation.

- Duration: 302 days
- Commencement date: 14.09.2014
- Completion Date: 02.07.2015
- Budget: \$ 1,939,145
- Employer: Bazian Can Factory, Sulaymaniyah KRG

OHTL 132 kV line between Bazian switching substation and Gasin Cement factory

Project consisting of Design, engineering, procurement, construction (EPC), testing and commissioning of OHTL line with 17.6 KM from Bazian Switching Station to Gasin Cement Factory.

- Duration: 212 days
- Commencement date: 23.06.2014
- Completion Date: 21.01.2015
- Budget: \$ 4,689,924
- Employer: Gasin Cement, Sulaymaniyah KRG

132kV Underground Cable Between New Rizgary Substation and City Center Substation

Project consisting of Design, engineering, procurement, construction (EPC). Testing and commissioning of 132kv Underground cable with length 5.5 Km for connection between New Rizgary Substation and City Center Substation.

- Duration: 603 days
- Commencement date: 15.05.2013
- Completion Date: 07.01.2015
- Budget: \$ 15,411,530
- Employer: Ministry of Electricity, KRG

33 KV DC Lark OHL (Bestana - Rozhhalat , Harir - New Harir, New Harir - Khalifan)

Project consisting of Design, engineering, procurement, construction (EPC), testing and commissioning of OHTL line with 33KV OHL between Bestana SS-Rozhhalat SS-Harir SS-New Harir-SS and Harir SS-Khalifan SS

- Duration: 180 days. (Plus extra time given to the project)
- Commencement Date: 25.10.2012
- Completion Date: 18.8.2014
- Budget: \$ 3,640,130
- Employer: Ministry of Electricity/ KRG General Directorate General of

Construction of Degala Dam

Project consisting of redesigning and construction of a Dam in the Degala District with installation of two Electrical Turbines.

- Duration: 730 days
- Commencement date: 06.12.2010
- Completion Date: 14.05.2014
- Budget: \$ 4,799,156
- Employer: Ministry of Agriculture and Water Resources, KRG

Construction of Degala Bridge

Project consisting of engineering, procurement and construction (EPC) of Degala Bridge.

- Duration: 6 months
- Commencement date: 15.10.2013
- Completion Date: 5.05.2014
- Budget: \$ 933,848
- Employer: Council of Ministers, Committee of Water and Irrigation, KRG

Construction Telecom/GSM Sites

Project consisting of construction of 240 GSM Sites with the Installation of Telecom Equipment Civil Works, Tower Erection, Grounding and Electrical Power Supplying of the AsiaCell GSM Base Stations in the region. Installation of 125 Telecom Equipment (BTS) Installation of 125 Microwave Links Installation of 34 DCS & Pico cells.

- Duration: 8 years
- Commencement date: 01.05.2005
- Completion Date: 24.04.2014
- Budget: \$ 11,623,000
- Employer: AsiaCell - GSM, Iraq

Stage 6 of the Electrical Power Substations in the Sulaymaniyah Governorate

Project consisting of designing, engineering, procurement, manufacturing, delivery, installation, construction, testing and commissioning (EPC) of four (4) new 33/11kV substations in Sulaymaniyah Governorate.

- Duration: 530 days
- Commencement date: 29.04.2012
- Completion Date: 12.01.2014
- Budget: \$ 23,163,040
- Employer: Ministry of Electricity, KRG

Construction of Shwan - Qara Hanjeer Road

- Duration: 420 days
- Commencement date: 05.11.2012
- Completion Date: 30.12.2013
